

BRAYN'S DAY OF REST

Good Night's Sleep, Goes to Church and Receives Callers.

WINKLEY ENTERTAINS FRIENDS.

Delegations to Visit the Ohio Governor This Week—Democratic Nominee For Governor of New York Makes a Statement—Grosvenor Makes an Estimate on the Electoral College.

WASHINGTON, Sept. 21.—William J. Bryan spent Sunday in Washington as the guest of C. T. Brice. Mr. Bryan left the city by the Pennsylvania railroad last night for Baltimore. This course was necessary in order that he might catch the train from that city which enabled him to reach Dover, Del., in time to speak this afternoon. He was accompanied by General Kenney, the chairman of the Delaware state committee, and John Salisbury, of the reception committee appointed to meet him into the state.

Mr. Bryan had a refreshing night's sleep after his week's work and slept until yesterday. He looked remarkably vigorous and healthy, and his face is in good trim. After a late breakfast the candidate, escorted by Dr. Schell, the officiating minister, and accompanied by Mr. Brice and Mr. Kenney, attended the New York Avenue Presbyterian church. After the service, Mr. Bryan spent the remainder of the day in rest and conversation with callers.

Among those who saw Mr. Bryan were Senator Butler chairman of the committee, and Mr. Kenney secretary of the committee, representative McMillin and Commissioner of Indian Affairs Browning. A number of more persons came in during the day and evening to pay their respects to the candidate but few of them saw him.

A curious crowd gathered in front of the residence at different times during the day and evening and cheered lustily at the Nebraskan's appearance. After sundown Mr. Bryan and Mr. Kenney went out for a drive about the city. It was dark and very few persons recognized those in the carriage.

There were no conferences at the residence during the day other than that of the chairman and secretary of the populist executive committee. The situation generally, the condition of the campaign and the outlook were discussed. The leaders expressed the opinion that the silver sentiment was waning every day and that it was not possible to stem its tide. Senator Butler said Mr. Bryan was very much satisfied and encouraged at the forecast.

JOHN BOYD THACHER.

New York Democratic Candidate For Governor Declares Himself.

ALBANY, N. Y., Sept. 21.—By making an official statement late last night of his position upon the financial question, and by declaring in that statement that he is unalterably for gold, John Boyd Thacher, Democratic nominee for gov.

error creates one of the most curious situations ever known in politics in this state.

The statement was issued after a conference with Senator Hill, Elliot G. Danforth and D. Candy Herrick. It was addressed to the chairman of the state committee. It is believed this course is approved by Senator Hill, William F. Shochan and others not in attendance at the state convention and is intended to try and fend off any nomination of a second Democratic ticket as Brooklyn and force a fight at the polls upon state issues leaving the national ticket entirely out of the question.

Mr. Thacher in his statement declares that he is against free silver but will vote for Bryan and Sewall for regularity and fight the campaign on state issues only.

SAN FRANCISCO, Sept. 21.—The supreme court has ordered a new trial for Alonzo J. Whitman, convicted of forgery and sentenced to nine years' imprisonment. Whitman was formerly wealthy. He was mayor of Duluth, Minn., and also served a term as state senator. He met with reverses and came to San Francisco about two years ago and cashed at the Bank of California, a check drawn by Arthur Bixon for \$500. Later the check was declared a forgery and Bixon a myth. Whitman was arrested in New York and brought here for trial. He says he has found Bixon and procured affidavits from him which state the check was a genuine one and accepted by Whitman in good faith. Whitman alleges there has been a conspiracy to send him to prison on a trumped up charge.

Sugar Refinery Burned.

MONROE, N. B., Sept. 21.—Fire broke out in the charhouse of the Moncton sugar refinery yesterday. Before the firemen could reach the place the upper stories were a mass of flames. Nothing could be done and soon the fire had eaten into the sugarhouse, eight feet high, and within an hour it was ablaze. The fall of the heavy machinery sent sparks and sheets of flame 100 feet above the highest wall. In two hours nothing was left but the bare walls. The refinery was owned by the Arcadia Sugar Refining company, with headquarters in Halifax. It is said to be insured for \$300,000 but the loss will exceed that figure. About 150 men were employed. The cause of the fire is unknown.

British Capture Dongola.

KERMA, on the Nile, Sept. 12.—Dongola has fallen and the nominal objective point of the British-Egyptian expedition has been reached. The river forces of the British-Egyptian expedition, pushing up the Nile from El Hafir, yesterday landed a force at Dongola and occupied that place before the Dervish forces retreating from El Hafir reached that point. El Hafir and Dongola are therefore in the hands of the expedition, while the Dervish forces are somewhere between seeking a refuge.

TROUBLE IN COLORADO.

Miners Said to Be Terrorizing the Town of Leadville.

LEADVILLE, Colo., Sept. 21.—Early this morning three heavy explosions aroused sleepers in the eastern part of the city, for blocks around the Colorado mine, the first to resume operations after the strike of three months ago. The mine was heavily barricaded and well stocked with provisions and arms.

The explosions were followed by a fusillade of rifle shots, apparently from within the barricades, and rapid but irregular shots from the outside.

The city is in a panic of fear. City and county officials are out looking after the work of the police and the Sheriff.

ANARCHISTIC PLOTTING.

Police Discover Dynamite in a Chicago House.

CHICAGO, Sept. 21.—Joseph Bestman, said by the police to be an anarchist, left at 19 Sedgwick court three years ago a trunk containing sufficient dynamite to have destroyed an acre of property in Chicago, and to have taken the lives of hundreds of citizens.

Bestman was not found, but the police have received information that he is living in Dallas, Tex., and wired the chief of police there to arrest him at once.

The discovery of this enormous quantity of explosive matter and the story of Bestman himself, brings to light a tale of anarchistic plotting such as Chicago has not had revealed since the dark days of 1885. Much correspondence with the condemned anarchists was also found.

BURIED HIM ALIVE

White Caps' Brutal Treatment of a Man Near Toledo, O.

FARMER DEWITT TAKES HIS LIFE.

Restored to Health by the Faith Cure.

Jailed For Criminal Assault—Claims Infringement of Patent—State Fair Not a Financial Success—Refused to Probate a Miser's Will.

TOLEDO, O., Sept. 21.—The whitecaps have created another sensation in this county by whipping a man named Huntsman, who lives at Holland station, 10 miles from here and burying him alive. The story has only leaked out, although the outrage, according to the police was committed on Sept. 9. The Huntsmans, under threats, were afraid to communicate to the authorities the facts and informed the police yesterday. The facts, as reported to the police, are that two of the Huntsman children coming from the postoffice, were picked up on the road by two men in a buggy and accused of stealing a pocketbook containing \$50. The next night a party of men came to the Huntsman house and after calling him out of bed seized and dragged him outside and beat and abused him in a frightful manner. Then they carried him to a grave and putting him in it, covered him with earth. After a while they dug him up again. Then they beat and abused him a second time, and finally buried him again.

Then they dug him up for the second time and again lashed him and then drove away. The two children were also lashed. The affair occurred about midnight. Huntsman is a respectable, well-to-do farmer.

GLASSWORKS BURNED.

Ten Acres of Buildings Wiped Out at Anderson, Ind.

ANDERSON, Ind., Sept. 21.—The Moridian glassworks was destroyed Saturday night by a fire which originated in the engine room. In a half hour the entire 10 acres of buildings were in flames and the firemen were helpless. Little was saved.

President Schies roughly estimates the loss at \$200,000, including stock. The plant was the largest and finest flint glassworks in the west. The product was bottles, jars, flasks and novelties. It has been operating for the past two months on McKinley and Bryan glasses and paperweights, and was behind in orders. The plant will be rebuilt. It is fully insured. Originally the plant alone cost \$75,000.

Mr. Peak is a member on trial and desired to be admitted to full connection with the conference, and then be granted a supernumerary relation, so as to attend a faith cure school in New York. The ministers objected.

Relatives went to visit the baby the other day, and were surprised to learn that she had been taken away by an unknown man, who produced papers giving him authority over her, and who said he would put her in an Indianapolis institution. The mother is frantic over the abduction of her baby.

Illinois Jury Says Damages Cannot Be Collected For Acts of Strikers.

PRINCETON, Ills., Sept. 21.—A jury in the Bureau county court, in case of the Spring Valley Coal company against the city of Spring Valley for \$16,000, claimed on account of the looting of their general merchandise store by striking coal miners, has brought in a verdict in favor of the city. The looting occurred during the three months' strike two years ago, when a number of stores at Spring Valley and Ladd were overrun by a mob of over 1,000 miners and the stocks of goods either ruined or carried away. This is the first case of the kind in Illinois, and its final outcome will affect a number of other cases now pending, among the number being the case of the White Breast Fuel company of Ladd for a much larger claim for damages than in the present case.

ATTENTION REPUBLICANS.

A Distinguished New Yorker Coming to Greencastle. Hear Him.

To the Republicans of Putnam county:

The Hon. Warner Miller, ex-United States senator from the state of New York, will make four speeches in Indiana and we are fortunate to get one of them. He will speak in Greencastle on Friday, Sept. 25 at 1:30 p. m. Every township ought to organize to be present at that time. We hope that the committee men will see that this meeting is specially advertised at all the meetings between now and then.

C. B. CASE, Chron.

ARTHUR THROOP, Sec.

PUTNAM pays over \$58,000 state taxes per year.

Will the Democrat still deny that there are bonds out against the county fund or will it step up and tell the truth?

Do Messrs. Farmer and Talbott know where all the county's debts are by this time or are they ignorant as they were before the last session of the county board.

Will the democratic papers of Putnam tell what county officer visited the state tax board and said that our assessment was none too high and that the ten per cent should go back on?

DON'T KNOW FARMER and Me Too Talbott are the worst set of financiers developed this season. They believe in saving at the spigot and wasting at the bung hole. They pay interest on county bonds rather than pay off the bonds.

ARE local democratic papers in their desperation lying about land having depreciated 50 per cent since 1873 or do figures lie now when they show that the state tax paid from Putnam into the state treasury has more than doubled?

Will the county treasury be "busted" in October or in November? The board has estimated that the funds will all be gone by November but with two such mismanagers as Don't Know and Me Too the bust may come sooner.

WHAT favored democrat will be favored when the county has to borrow money to pay running expenses from November until April in Putnam's affairs? Will bonds be issued in open market or will some friend of Don't Know and Me Too walk off with the loan.

Will the democratic papers of Putnam county explain why it is that a republican congressman who speaks but one tongue can draw

twice as many people as a real live democratic U. S. senator who can speak seven different tongues?

WERE the local papers lying about Stockwell four years ago or are they not in earnest now when they fawn and slobber over him as they eat their dose of crow in trying to deceive populists?

WERE the democratic papers lying to the people in 1893 about silver when they advocated the repeal of the Sherman purchase law or are they misrepresenting matters now in their demand for free silver?

Will there be the usual amount of favoritism shown in the gravel road districts of the democratic county commissioners this winter as of yore? There has been more robbery and jobbery in Putnam's road management than in all its mismanagement.

In a long editorial (clipped of course) the Star Press says:

The prices of all farm products have been constantly declining since 1873, until, in 1896, the decline has reached almost one half. On the other hand, the farmer's mortgages and taxes and debts of all kinds have not decreased.

The Star Press thus admits that taxes have not decreased in Putnam. Taxes are higher and the farmer's lands are assessed much higher. That is the trouble with him. The "crime" of 1873 has nothing to do with the case or democratic papers would have been smart enough to see it before.

PUTNAM'S VALUATION.

The democratic handbill has begun its explanation of Putnam's mismanagement but it does not answer the question this paper put as to why an acre of land in Putnam is worth many dollars more than it is in four surrounding counties? We still insist notwithstanding the handbill's set of figures that land is valued higher in Putnam than surrounding counties. The handbill says Hendricks land is worth \$27 per acre, Montgomery \$28, Putnam \$23, Parke \$21 and Morgan \$19. It gives Putnam at \$21 but in the next sentence says a 10 per cent reduction made by the local board of review was put back on by the state board (after a Putnam official had gone before that board and told them that Putnam's valuation was none too high.) The Putnam valuation per acre is therefore \$23. These figures are an average valuation of entire counties and the table is as unfair a comparison as Putnam's figures are unjust. The counties of Montgomery and Hendricks are so far ahead of Putnam in valuable lands that there is no comparison. In Putnam about one-fourth of the land will compare favorably with some of the lands of surrounding counties but three-fourths of it should not be assessed at a half or possibly a third the value of the other counties. An examination of the values of lands in the townships adjoining Montgomery and Hendricks counties shows that the valuation is nearly the same. Upon that basis valuation in other townships in the county should be not over half as much, but a high value is placed upon it in order to carry a low rate, and land in the greater part of this county is assessed at a much higher price than it can be sold at. Lots of it now will not bring \$10 per acre and hundreds of acres not over \$5 per acre. This is all valued double what it is worth in order that the commissioners may make a low county rate. For years a good upland farm in Putnam has been offered at \$11 per acre with no purchaser and it is valued at nearly double its market price. The lands of Montgomery and Hendricks counties as a rule are cut into smaller farms, well improved and are very valuable. Still a higher value is placed in proportion in Putnam county on poor lands.

That is one reason of the present discontent among farmers in Putnam. They are required to pay heavy taxes on land that can not be sold for half its appraisement, just in order that Putnam's commissioners may hold in front of their eyes a low rate. This low rate, however, is not doing its work even with the enormous valuation.

The county is in debt and is running behind. It collects \$41,000 county tax each year and the state gets in by reason of this over valuation and walks off with \$58,000, just double what it was in 1873, since which year democratic papers say land has depreciated 50 per cent. Defend all they will the democratic papers of this county can not make the tax payers believe they are not getting robbed on taxes.

WHILE the court house was crowded Saturday many people were disappointed after they heard of the speech that they did not at least make an effort to hear Mr. Fowler. The announcement of a republican speaking this year is a guarantee that it will be strictly first class. The republicans have no other kind this year and Putnam is especially fortunate in its list. Every speech hereafter will be well worth hearing as all those in the past have been. The democrats are putting out no good speakers this year for the simple reason that the best speakers of the democratic party have repudiated the repudiation branch of the democratic party which repudiation branch in turn is in control of the party machinery in Putnam. Among the republican speakers yet to come are Warner Miller, of New York, John L. Griffith, Frank B. Posey, A. J. Beveridge, W. D. Owen, H. Clay Evans, of Tennessee, and a number of others. Don't miss one of them as they will all be good.

On June 25, 1892 the Democrat said: "The county owed June 1, but \$750 out of county revenue." On Sept. 19, 1896, the Democrat said: "The county owes no debt whatever chargeable to the general funds." The one republican commissioner in Putnam has developed the fact that there is now and has been since 1887, an outstanding indebtedness of \$2,300 against the general fund of Putnam county. Will the Democrat repeat its declaration and will it please state how it wants to be believed this year—on its 1892 record or upon the present condition of affairs. We can furnish its readers with either.

THERE are twenty-five democrats in one neighborhood in Putnam who will not support Me Too Talbott. May political fate ever spare us from living under a county board with Talbott as its president. The only reason these twenty-five voters will not vote against Don't Know Farmer is that he is not running. Seems by the last allowances that Farmer is getting his relatives up to the trough lively.

Will the democratic papers explain where the \$7,000 received by the county by virtue of a reduction in officers salaries is going. The people want to know why this isn't being applied to the payment of bonds and the payment of interest long overdue.

To be exact the Maine majority was 49,491.

A REPUBLICAN DAY.

Saturday's Magnificent Meetings—A General Onslaught.

Saturday was a day that marks one of the bright spots in the brilliant campaign the republicans are putting up in Putnam county. Never before were republican prospects so bright in Putnam and never before were the gallant boys who have so bravely fought the enemy for years so thoroughly in earnest and working so hard. They feel that they will carry Putnam county and their belief is strengthening daily. Saturday's meetings at five points in the county were all well attended. In Greencastle Hon. Chas. N. Fowler, of New Jersey, spoke to a crowded court room. The address was two hours long and every hearer remained to the close of the meeting. Mr. Fowler held the closest attention and the high compliments heard at his close were genuine. Mr. Fowler's address was full of patriotism and fire, and his explanation of the money question was clear to every mind. Those missing his speech missed a rare treat. In the evening the opera house was crowded upstairs and down, notwithstanding the democratic leaders used every means at their command to keep their voters away. A number of the rank and file would not be dictated to, however, and attended. They were given good seats and heard a fine address. Hon. J. Frank Hanly was the speaker and for two hours he held the immense audience spell bound with his eloquence. Notwithstanding it was Saturday night the house was crowded, many standing, and the stage was full of silver-haired veteran voters. Mr. Hanly was deliberate and made his points in the clearest language. His strongest eloquence was put on his masterly arraignment of the Wilson bill, which brought forth rounds of applause. Mr. Hanly's speech was a vote winner as was Mr. Fowler's. Wilbur Starr sang several selections entertaining the crowd in the evening before the speaker arrived. It will be many a long day before Greencastle people hear two as magnificent speeches in one day as those of last Saturday.

JOHNSTON AT FINCASTLE.

Hon. James T. Johnston spoke to over 500 people at Fincastle at 1:30 Saturday. Parties attending say that it was the best speech Mr. Johnston ever made in this county. There was plenty of good music and the day was a vote getter. The Fincastle people are hustlers of the first degree.

HARRIS AT ROACHDALE.

Hon. A. C. Harris spoke to a large crowd at Roachdale Saturday afternoon. Several democrats were in his audience and his logical points on standards of measurements and values easily convinced

Cripple

The iron grasp of scrofula has no mercy upon its victims. This demon of the blood is often not satisfied with causing dreadful sores, but racks the body with the pains of rheumatism until Hood's Sarsaparilla cures.

"Nearly four years ago I became afflicted with scrofula and rheumatism.

Running sores broke out on my thighs. Pieces of bone came out and an operation was contemplated. I had rheumatism in my legs, drawn up out of shape. I lost appetite, could not sleep. I was a perfect wreck. I continued to grow worse and finally gave up the doctor's treatment to

take Hood's Sarsaparilla. Soon appetite came back; the sores commenced to heal. My limbs straightened out and I threw away my crutches. I am now stout and hearty and am farming, whereas four years ago I was a cripple. I gladly recommend Hood's Sarsaparilla." URBAN HAMMOND, Table Grove, Illinois.

then that free silver was a fallacy. There are a large number of sound money democrats in northern Putnam who were delighted with Mr. Harris' points.

LOCKRIDGE AT PUTNAMVILLE.

Last Saturday evening A. O. Lockridge spoke at Putnamville. The meeting was held in Curtis hall and though a musicale was being given in another part of town, a good sized audience was present. Mr. Lockridge discussed the money question, county matters and the Altgeld plank in the popocratic platform. His speech was well received and at the close he was heartily congratulated upon his effort. A lady in the audience presented Mr. Lockridge a beautiful bouquet of red, white and blue flowers.

Warren township is thoroughly organized and weekly meetings are to be held in Curtis hall until after the republican landslide in November.

A "Monetary Tack"

There is one sentence in the platform adopted by the sound money Democrats of New York that deserves to be blazoned on every wall. "The gold standard," the platform affirms, "is a monetary fact which cannot be changed by act of congress."

International balances, even where silver using countries are involved, are invariably settled in gold, whether silver is "restored" or not. When Mexico or Japan desires to pay for an invoice of goods from the United States or Great Britain, she is compelled first to buy gold with her depreciated silver. Endowing silver with legal tender power would count for nothing outside of the Union. In international trade gold is recognized as the sole medium of exchange, and it passes current at its actual bullion value.

A standard of value composed of both gold and silver is an impossibility. No such standard ever existed except in imagination. It is time that this venerable myth was retired.

Out For the Double Standard.

"Where do you stand on the silver question, Mr. Schaumburg?" said Gilbooly to a prominent Dallas merchant. "Vot you mean?" "Well, are you in favor of a single or double standard of value of money?" "Oh, I was in favor of a double standard—von to pay mit and von to sell mit. Py schiminy gerashus! If der was only von standard of value, vere vill de profits come in?" —Texas Sifter.

Paste This In Your Hat, W. J. R.

Neither oratory nor argument can change the great primal fact that honesty is the best policy and that the operations of this policy apply no less strictly to nations than to individuals. Nor can the mere disregard of a fact check its inevitable consequences. —Baltimore American.

Under free coinage at 16 to 1 the silver dollar must be one of two things—either it will be worth 100 cents—in which case it will not be the cheap dollar which is promised to the farmers—or it will be worth 53 cents and will cheat every man who is compelled to take it out of 47 cents.

Sure to Win.

The people recognize and appreciate real merit. That is why Hood's Sarsaparilla has the largest sales in the world. Merit in medicine means the power to cure. Hood's Sarsaparilla cures—absolutely, permanently cures. It is the One True Blood Purifier. Its superior merit is an established fact, and merit wins.

Jackson Boyd tried to speak at Fillmore Thursday for free silver and right in the midst of his speech a democrat arose and asked Mr. Boyd if he was trying to make a free silver speech. It is said Mr. Boyd assured the gentleman that he was and then proceeded. It wouldn't be a bad idea to label some of the democratic "efforts" that are being inflicted upon a long suffering community.

Policeman Parker received a telegram from Indianapolis about 7:45 Saturday evening instructing him to arrest two colored men who were on the front end of the second car in the mail train arriving that evening at 8:03 on the Vandalia.

When the train pulled in, it ran past the station and before it could be run back to its place in front of the platform, one of the colored men had gotten off and with him a white man. They were on the second car as the telegram stated. The remaining colored man was arrested, but the others could not be located, as they ran into the weeds near the track and escaped in the darkness. The one arrested was brought up town and lodged in jail.

A second telegram instructed Parker to hold the man "if wanted." Not receiving further instructions he was released this morning as there was nothing suspicious about his appearance.

While Congressman Paris was delivering his speech at Riley last night a large lump of coal was hurled through a window and narrowly missed his head. Every effort was made to find the perpetrator of the outrage, but he succeeded in making his escape. There were over 1,000 people unable to gain admission to the hall last night and the demonstration is said to have been the largest affair in the history of the town.

Dr. Martin's No. 100 Coffee Makes
Delicious Cup at Half the
Usual Expense.

The taste of this new health drink is peculiar to itself, yet so much like genuine coffee, that many prefer it to Mocha and Java. If you are an invalid and a victim to coffee or tea—both very injurious—and cannot quit, mix a small quantity with Nervine Coffee and break away gradually. Why throw money away for medicine while the cause of the disease remains. Nervine Coffee cures headache, nervousness, etc. Saves doctor bills and coffee expenses. 1 lb. 100 cups, 20 cents. 1 lb ordinary coffee makes only 40 and 45 cups. Eat Dr. Martin's royal Breakfast Food. Sold by grocers. 2.

For sale by T. Abrams, W. H. Harrison, Broadstreet & Son.

The Daily News this morning also prints an appeal from Miss Frances Willard to her sisters in America on the same subject, and in an editorial the same journal rejoices to be able to assist in such a project.

German Catholics.

DETROIT, Sept. 21.—Delegates to the conventions of the German Catholic National associations which began sessions in this city today, were formally welcomed to Detroit last night by Bishop Foley of the Detroit diocese, who extended a cordial welcome and stated that the sentiment of brotherly greeting on behalf of the Catholics of Michigan was wholly without respect to nationality. Upwards of 1,000 delegates to the four conventions are now in the city and it is estimated that there are considerably more than that number of visitors.

Serious Runaway Accident.

GALLIPOLIS, O., Sept. 21.—William Jackson of Columbus was driving in a trap with two friends Saturday night, when Salis Penn drove up alongside with a sprightly horse and challenged Jackson for a race. Both gentlemen applied their whips and dashed up street at a furious rate. In turning a corner Jackson's trap upset, spilling him and his lady friends out. His jaw bone was broken, his side stove in and he received internal injuries. Doctors have no hope for his recovery. His lady friends escaped with a few bruises.

The Tempting "More Money" Scheme.

There would be a scramble to pick up the promise did they not see the string to it.

There Has Been No Reduction.

When a silverite urges you to vote for free coinage on the ground that "the crime of '73" reduced the money in the country, just show him these figures: The money in this country in circulation, not counting the money in the treasury, at two dates 20 years apart was as follows:

	July 1, 1876.	July 1, 1896.
State bank notes.....	\$1,047,365	\$50,000,805
Subsidiary silver.....	\$1,553,128	\$50,000,805
Fractional currency.....	\$2,635,345	\$22,461,025
United States notes.....	\$31,447,275	\$22,461,025
National bank notes.....	\$16,130,762	\$15,581,027
Specie on Pacific coast.....	\$5,000,000	
Gold coin.....		\$50,128,483
Silver dollars.....		\$2,175,108
Gold certificates.....		\$3,780,759
Silver certificates.....		\$31,250,839
Sherman notes.....		\$5,217,001
Currency certificates.....		\$1,841,000
Total.....	\$727,000,088	\$1,500,725,200
Per capita circulation.....	\$13.12	\$21.15

Besides the money in circulation there was in the treasury \$111,803,340 of gold to cover the certificates and maintain the redemption of legal tender notes, 378,614,043 silver dollars, which are in the treasury mainly because people object to receiving them, and other moneys aggregating \$684,519,981. The whole amount of money in the country in 1876 was \$765,683,284; in 1896, including gold and silver bullion in the treasury, the amount is \$2,346,897,955.

As long as gold, either from its intrinsic superiority as a metal, from its rarity or from the prejudices of mankind, retains so considerable a pre-eminence in value over silver as it has hitherto had, a natural consequence of this seems to be that its condition will be more stationary. The revolutions, therefore, which may take place in the comparative value of gold and silver will be changes in the state of the latter rather than in that of the former.—Alexander Hamilton.

Horse Nonsense.

"I don't think I am really any cheaper than I used to be," argued the horse. "I am worth just as much as I ever was. The bicycle has appreciated. That's all."—Chicago Tribune.

Let farmers remember that a 200 cent dollar is just as valuable in their hands as it is in the hands of the wage earner.
